AEG EV CHARGERS

WB 11 PRO / EV-CHARGER (11 kW)

WB 22 PRO / EV CHARGER (22 kW)

WB 11 PRO (11205)

WB 22 PRO (11206)

AEG Wallbox at a glance

- Suitable for indoor or outdoor use due to IP44 certification.
- Type 2 charging plug according to IEC 62196 included
- Fixed three-phase charging cable 5 m long
- LED status display
- Practical cable holder
- No user authentication necessary
- Connection to photovoltaic system possible
- RS485 BUS interface
- Quality Made in Germany

TECHNICAL FACTS

Model	11205	11206
Max. Charging power	11 kW	22 kW
Current	16 A max.	32 A max.
RCD	30 mA AC Type A RCCB & 6 mA DC Residual current detection	
Voltage	3-phase 400 V	
Frequency	50/60 Hz	
Overvoltage category	III	

CONNECTIONS

Model	11205	11206
Assembly	Wall	
Charging coupler	Type 2 plug or socket according to EN 62196	
Cable length	5 m	

COMMUNICATION & FUNCTION

Model	11205	11206
	LED status display	

MECHANICAL FACTS

Model	11205	11206
Dimensions (H x W x D)	48 x 36 x 13 cm	
Weight	6.6 kg with charging cable	
Protection class	IP44	

ENVIRONMENTS

Model	11205	11206
Operating temperature	-40 °C ~ +45 °C	
Storage temperature	-40 °C ~ +70 °C	
Humidity	5 % ~ 95 % non-condensing	

CERTIFICATES

Model	11205	11206
Standards and guidelines	CE conformity
